**Education** **California State University, Chico**  
BA in Communication Design  
BS in Applied Computer Graphics

## **Experience** **September 2008 – Present**

Counsyl

*Brought on as the lead designer for a genetic health care company to develop a website that presented the company as modern and trustworthy. Responsibilities were based around design and front-end development.*

*Learned to work with jQuery and Django templates, manage tasks with Trac, and manage files using Git.*

## **August 2006 – May 2008**

Instructional Media Center

*Worked with on-campus clients on projects for both web and print output. Projects ranged from department websites to promotional cards and directory covers. Technologies used include Photoshop, Dreamweaver, XHTML/CSS (based on government standards), Flash, InDesign, and Illustrator.*

*Learned to work in a team environment, communicate with clients, manage deadlines, prepare files for the printer, and use appropriate tools to maximize quality and efficiency.*

## **August 2004 – Present**

Freelance Designer

*Designed web sites, posters, and other promotional materials for a variety of clients.*

*Learned to be self-motivated, manage time, and maintain professional relationships.*
