Education **California State University, Chico**
BA in Communication Design
BS in Applied Computer Graphics

Experience **March 2010–Present**
OrganizedWisdom
Joined a great team to help present curated health information in a clear, concise format. Focused on design and front-end development.
Learned to work within Codelgnitor templates, and work in an environment of rapid deployment.

September 2008–May 2010
Counsyl
Brought on to develop a website that presented the company as modern and trustworthy. Responsibilities included design and front-end development.
Learned to work with Django templates, manage tasks with Trac, and manage files using Git.

August 2006–May 2008
Instructional Media Center
Worked with clients on projects for both web and print output. Websites were developed based on strict government accessibility standards.
Learned to communicate with clients, manage deadlines, and prepare files for the printer.

August 2004–September 2008
Freelance Designer
Designed web sites, posters, and other promotional materials for a variety of clients.
Learned to be self-motivated, manage time, and maintain professional relationships.
